

REMARKS

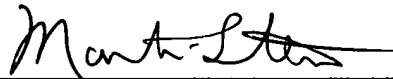

The above amendments to claim 27 are intended to make the claim internally consistent. In the Amendment filed October 14, 2004, claim 27 was amended to recite in the second clause "two generally vertical support/display members" instead of one. The third and fifth clauses should have likewise be amended to recite "two" vertical members instead of one. Applicants seek to correct this inadvertent error by the present amendment. Similarly, claim 29 is hereby amended to correct a typographical error. No new matter is believed to be introduced by these amendments.

Should the Examiner believe that a conversation with applicant's representative would be useful in the prosecution of this case, the Examiner is invited to call applicant's representative at the number listed below.

Respectfully submitted,
